EXPERIENCE

PricewaterhouseCoopers (PwC) | *Risk & Regulatory Internal Audit Intern| San Francisco, CA* **June 2026 – August 2026**

- Supported internal audit and regulatory engagements for a global technology client, assessing controls, third-party risk, governance and payment regulations across markets.
- Tested controls for 19 software issues out of 186 flagged items, assessed risk findings, control design, and operated effectiveness to identify control gaps.
- Developed audit workpapers and client deliverables, presenting risk and control findings to the engagement team.

Amazon | *Area Manager Intern | Houston, TX* **June 2025 – August 2025**

- Analyzed real-time operational data to identify performance trends and implement process improvements, sustaining 120% of target pick rate.
- Applied Lean/Six Sigma principles to optimize pick-path efficiency and staffing workflows, reducing operational idle time by 12%.
- Audited scanner data across 5 floors and streamlined tote-removal workflows, reducing processing time from 7 days to 3 days per floor.

Aqrawi and Associates Law Firm LLC | *Accountant Assistant | Houston, TX* **November 2024 – January 2025**

- Managed settlement disbursements and financial records while coordinating with attorneys, clients, insurance companies, and healthcare providers.
- Maintained accurate books and processed payments in accordance with legal and financial requirements.

ACADEMIC PROJECT

Transaction Processing System | *MIS 3371 Capstone Project |* **August 2026 – Present**

- Use HTML, CSS and GitHub to collaborate on a web-based site which has structures in data entry and streamline workflow process.
- Define system requirements and documented 15-field data dictionary, including data types, validation rules, business rules, and system generated fields to prioritize accuracy.
- Utilize GitHub for version control, reviewing code changes and coordinating with my engagement team throughout the development process.
